SPRING  
SUMMER 2024

# CREATING AESTHETICS, DEVELOPING ATMOSPHERE

Launched in 2000, CASAMANCE is a French editor of fabrics, wallpapers and high-quality wallcoverings. CASAMANCE proposes a complete decorative range thanks to its different departments. Its collections are notable for their carefully-crafted colour ranges, the diversity of the designs and the subtle textures, the result of a high degree of "savoir-faire". CASAMANCE captures the mood of the time, incorporating it into its creations, offering only products that last, retain their appeal and add soul to the interiors. CASAMANCE is French-style modernity, elegance and refinement.

## 2024 INSPIRATIONS CENTRAL AMERICA

### *Sensory journey, powerful colours*

This spring-summer 2024 is about colourful Latin American inspiration drawing on its artistic and artisanal history to introduce collections bursting with abundance and vitality. Lush nature, exuberant energy and unique organic shapes...The Pico Bonito, Xalapa, Machaya fabrics and the Casa Azul wallpapers celebrate the wealth of textures and the radiant colours. The patterns are decked in radiant shades, shimmering highlights and delicate touches to create grandiose and captivating decors.

## ART DECO SOFT GEOMETRICS

### *Masterpieces of delicate lines and curves*

CASAMANCE reinvents a softly rounded geometry for this spring-summer season. Meticulously crafted, it creates harmonious interlocking shapes. The tones used combine trends, contrasts and shine. Innovative textures add highly-sophisticated touches of a remarkable quality. Influenced by the Decorative Arts and urban architecture, the Luminescence and Montsouris fabrics, and the Faubourg des Lumières wallpaper collection lift materials and colours to new levels of refinement.

## COLOUR AMBIANCE 2024

### *A sumptuous, unique and exquisite colour range*

Lovely natural neutrals, delicately frosted pastels, a dusky and comfirting feminine range, a warm palette with bold shades inspired by fashion...The different colours perfected by the CASAMANCE stylists this season include particularly elegant and irrefutably contemporary combinations. Radiant, sunny, deep and assertive, they allow you to reinvent your decorative palette in a remarkable graphic harmony and a refined artistic style.

### *An exceptional colour palette, the signature of the Casamance brand*

Having become a must-have, the 6th edition of the PARIS TEXAS collection features new colours for 2024 to offer an extraordinary palette of 108 plains. Giving ever more creative possibilities with an even more extensive and subtle colour palette. The colours are lovingly developed by our design studio. Printed on the traditional mercerized and peach-finish cotton-linen blend, these fabrics are designed for heavy-duty seating, curtains and accessories. Made in Italy, the collection holds the Oeko-Tex label, guaranteeing the absence of harmful products for both your health and the environment.

## PANORAMAS 3

### *Lifesize landscape, XXL printings*

PANORAMAS 3 is the third chapter of our panoramic wallpanels collection on both non-woven and vinyl papers. This time a compilation of reflective stories inspired by reality and sculpted by the imaginary. Created by our design studio: landscapes from near and far, a wheat field after the harvest, the natural beauty of stone, a sparkling stary night, an artist's impression in colour...An infinite number of drawings, graphic styles, textures and dimensions, to decorate the different rooms of the house with dreams and emotions. Beautifully illustrated stories with the sheer expanse of the walls as their backdrop.

## TAFFETA SPLENDOUR

### *A new modern twist for this wonderfully chic fabric*

MENAGGIO signals the return of taffetas. Its beautifully crisp drape is the very embodiment of elegance. Dyed before weaving, the yarns give a lovely colour-changing effect. With the warp and weft in different shades, combining ochre with turquoise or blue with brown, adding delightful nuances to the weave. Produced in 330 cm width, MENAGGIO is extra-wide and is available in a large palette of 64 colours.

## IMPÉTUEUSE AND ITHAQUE

### *Collections designed for the most comfortable seating*

A truly creative and sensorial experience, ITHAQUE and IMPETUEUSE cover seats with opulent colours and exceptionally dense textures, giving incomparable visual and tactile pleasure for extremely comfortable and hard-wearing seating. Dense loops in delicately marled shades and incredibly soft chenille knits are available in different qualities and an immense palette of intense, subtle, iridescent and timeless colours...

# WEST BAY In & Outdoor

## *A decorative, radiant and invigorating interlude*

Since 2013, CASAMANCE has edited In & Outdoor collections to help you make the great outdoors an exceptional decorative environment. These creations are perfectly resistant to light, chlorinated and salt water thanks to their special weave. WEST BAY is the 5th In & Outdoor collection by CASAMANCE. Multicoloured weaves, voiles, bouclettes, geometrics and stripes as far as the eye can see: the patterns and colours of the different designs promise endless possibilities of combinations and coordination. A timeless and radiant sunshine palette with deep ocean-blues: a delicious holiday atmosphere.

## Maison CASAMANCE

### *Exceptional accessories with an infinitely refined character*

Designs, colours, finishes, textures...the exquisite accessories collection by MAISON CASAMANCE invites you on an ever more sophisticated and exciting aesthetic adventure. Audacious combinations, harmonious settings: a new designer universe to give great creative freedom. Each accessory, beautifully created using the colour palette and personality of MAISON CASAMANCE has been designed in perfect harmony with all the other items in the range... A unique stylistic experience and artistic accomplishment.

# GOOD TO KNOW
